### **DETAILED ACTION**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Rath.

The patent to Rath discloses a heavy vehicle brake system as recited in the Final Rejection and explained by the last response. All features of the claimed invention are found in the reference, as the reference uses both the limitations of the primary braking system and the retarder, regarded as the engine brake, to determine the max allowable speed on a given grade. Claims 1 and 7 fail to limit the calculation of Max allowable speed to considerations of grade and retarder capabilities only. The applicant's response points out what is in the claims and the reference, but fails to expound on what is lacking in the reference.

Claims 11-18 are allowed.
